Esther and I would like to express our appreciation for the outstanding work your crew did in replacing our retaining wall system. They began the job early on Tuesday, as promised, and worked exceptionally long hours completing the job Thursday evening except for minor clean-up and smoothing.

I have rarely seen a more dedicated pair than Santo and Richard. They worked well together and built a wall we, and our family, Mark and Lisa, say is exceptional.

I was particularly impressed with the precision and care taken in laying out and building the walls. The alignment is virtually perfect and attention to detail was exemplary.

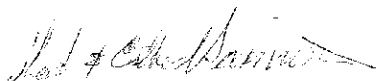

Their care during installation resulted in no loss of utilities although they worked around all four major lines entering our house.

The clean-up following construction was without fault. We were amazed at the lack of damage done to the grass over which they had to work.

Enclosed is a check for the agreed for amount.

Feel free to use this letter as a reference or list us as references for prospective clients.

Sincerely,

Herb and Esther Harmison
